December

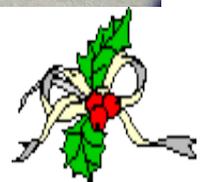

The Tiger has landed!

Friday 9 December—a memorable day for our Association and the Aviation Museum Foundation. The restored Tiger Moth made a perfect landing at about 11.15am on our extended site, witnessed by a good number of members. Above photo shows the Tiggie taxiing in to a standstill just after the landing.

The photos below provide very nice memories of this occasion. On the left, Ray Polidano and yours truly congratulating each other on the success of the event, with

Merry Xmas to all our members!

Clive Denny, the pilot of the Tiger between us. The photo on the right is a very nice shot of the association's members who turned up for the occasion.

Prior to the tiger's landing, Michael Curmi, Martin Mifsud, Stephen Galea, Wayne Galea in the turbine class, and Johann Micallef, Daniel Micallef, and Laurence Dalmas in the ic class took advantage of the extended runway and performed some spectacular flying.

On safe flying

I must mention the unfortunate incident which occurred on Saturday 3 December involving a mid-air collision between Oliver Micallef's Thunderbolt and Nick Mizzi's Spitfire. Although I was not present, I can conclude that while the "blame" on such incidents can never be determined, it may teach us something, namely:

1. Fliers must dialogue between each other what they plan to do during the flight.
2. Maiden flights should be performed when no other flying is going on, after seeking permission from the other members.

Multiplex Aerobatic Trophy

Another enjoyable event with the "wild" ones trying their best at some disciplined flying! Congrats again to Johann Micallef. Good show by all.

35Mhz Frequency Allocations (Update 22 October 2011)
